November 18, 2019

Dear Parents/Guardians:

At this time of year, it is a good idea to talk with your children about cold weather safety. Extra care is needed, especially in younger children to be sure that frostbite does not occur.

Please make sure all children including teenagers have appropriate outerwear every day.

This includes wearing warm winter jackets, hats, scarves and boots. An extra pair of gloves in their pockets will protect them during extremely cold temperatures.

Lexington adheres to a guideline that all children may participate in outdoor play only if they are adequately dressed as outlined above and only when the outside temperature and/or real feel temperature is 32 degrees or higher.

The guideline also states that no student will be allowed to remain outdoors for an extended period of time unless all body parts, especially those subject to frostbite are covered (feet, hands, ears, nose).

You may contact your child’s department supervisor with any questions and/or concerns.

Sincerely,

Jane Moran
Principal
